

# Watthanachet Hospital

BANGKOK

THAILAND

Watthanachet International Hospital

**L**ocated on Bangna - Trad Road km. 4.5 Bangkok, this 100-bed private general hospital of approximately 16,000 sq.m. distributed over 2 levels of basement and 11 levels above grade. The shape and exterior skin design of this building responds to site orientation and its surrounding. The main feature of the project including 2 storey high glass box foyer and roof garden on the 5th floor.

The clean and modern look of the building skin consists of pre-cast concrete wall panels, aluminum frame windows, high performance curtain wall system and expanded metal.
